YOUR BUSINESS IS SOLICITED

Security Safe Deposit Co.

BOSTON

THE New safe deposit vaults of this Company, at 30 Congress Street (in the New Exchange Building) are the strongest and most completely equipped vaults that human skill can construct when guided and directed by experience of over thirty years of safe deposit work.

The Security Safe Deposit Company was incorporated in 1879 and has from that time to the present devoted itself exclusively to the conducting of a Safe Deposit and Storage Business in the City of Boston.

For years its vaults in the Equitable Building were deemed models and its methods of management and maintenance copied. To the construction and maintenance of these new vaults it now applies all those lessons learned during its thirty odd years of corporate growth. Experience counts in the Safe Deposit business as in everything else.

INSTRUCTIONS TO KEY HOLDERS

Alarms are to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm open the door, pull the hook to the bottom of the slot once and let go. Each box contains a small bell, which, if heard before you pull indicates that an alarm has been previously given, and by listening at the box you will learn the number of box from which the alarm is given, but in no case will you pull the hook while the alarm is striking. After giving the alarm remain at the box so as to direct the firemen to the fire. Be sure that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed being placed over each box giving the requisite information.

First alarm will be given by striking two or more rounds of box number on gongs, bells and whistles.

Second alarm will be given by striking two blows once followed by box number on gongs, bells and whistles.

Third alarm will be given by striking three blows followed by box number on gongs, bells and whistles.

Fourth alarm will be given by striking four blows followed by box number on gongs, bells and whistles.

Two blows, all out signal.
